THE EYE BETWEEN US

You don’t just leave a trace. You change what comes next.

Each encounter creates an individual eye and shifts the collective visual state.

01 / THE PROPOSITION

A SHARED FIELD IN MOTION

One encounter becomes part of a larger gaze.

The individual leaves a trace. The collective carries it forward.

ENCOUNTER
procedural eye

ENCOUNTER
coarse cues

ENCOUNTER
no portrait stored

COLLECTIVE EYE

Every trace shifts rhythm, fluidity, tension and density.

02 / THE EXPERIENCE

Perception ↣ Interpretation ↣ Influence ↣ Common Ground

A simple invitation. A visible consequence. A shared memory that keeps changing.

01

PERCEPTION

A gaze, gesture or pointer movement enters the field.

02

INTERPRETATION

Visible cues become poetic material — never a claim about who you are.

03

INFLUENCE

Commit your trace: a new procedural eye appears; light travels into the whole.

04

COMMON GROUND

The collective state changes, shaping the encounters that follow.

03 / DESIGNED WITH CARE

No face photos. No raw video saved or uploaded.

Camera frames are processed in-browser. Pointer mode keeps the experience open when camera or AI is unavailable.

Words describe the artwork’s atmosphere — not a participant’s true emotion or personality.
